Mr Luke Barber
Road Safety Engineering
Environment and Transport
Floor 5, Endeavour House,
8 Russell Road
Suffolk County Council
Ipswich, Suffolk IP1 2BX

5th January, 2009

Dear Mr Barber,

Re your ref: RS/Witnesham/1299838

Further to your letter of 29th December 2008, thank you for your positive response and your best wishes.

Just to update you on our worst "blackspot"; we have had another accident, on 24th December. A van travelling north on the B1077 into Witnesham traversed the Rose Hill bend, lost control, bouncing off the verges and came to rest at 90degrees across the road, outside the second driveway that you and I accessed. I understand that there was no serious injury to the driver and no other vehicle involved.

As we have discussed, the SCC Speed Limit Technician will not always be aware of the many near misses that take place unless formally reported to him. As he is currently assessing that stretch of road I thought that I would write directly as I do not know if and when a Police report will reach you.

Best wishes for 2009

Thank you for your time.

Yours faithfully,

John Lightfoot
